

Sumanth Nagireddi

Full Stack Developer

As a Full Stack Developer, I offer a diverse range of skills and expertise for web development projects. With proficiency in both front-end and back-end technologies, I am capable of building and maintaining web applications from inception to completion. My experience enables me to leverage a wide array of tools and frameworks to create highly functional and responsive applications.

WORK EXPERIENCE

Systems Engineer - Full Stack Developer Infosys

11/2021 - Present,

Achievements/Tasks

- Developed and maintained web applications using the MEAN stack, including Angular for front-end development, Node.js for server-side scripting, and MongoDB for database management.
- Integrated third-party APIs and services to enhance application functionality and improve user experience.
- Conducted thorough testing and debugging to identify and resolve software defects, ensuring the delivery of high-quality, bug-free code.
- Participated in code reviews and provided constructive feedback to improve code quality and maintain best practices.
- Actively contributed to the continuous improvement of development processes and workflows, suggesting and implementing innovative solutions.
- Collaborated with cross-functional teams, including designers, backend developers, and QA engineers, to ensure smooth project execution and timely delivery.

EDUCATION

B.Tech - Mechanical engineering Pragati engineering college - Andhra Pradesh

06/2018 - 06/2021,

8.5 CGPA

CERTIFICATES

Infosys Certified Angular Professional
(05/2022 - 05/2025)

Infosys Certified Frontend Web Developer
(04/2022 - 04/2025)

Oracle Cloud Infrastructure Certified
Foundations Associate (04/2022 - 04/2025)

INTERESTS

Web development , Full Stack Development , Problem Solving
Logical Thinking

SKILLS

Angular

JavaScript

Typescript

Tailwind CSS

Bootstrap

Angular Material

Prime NG

Node JS

Mongo DB

NGRX

Rxjs

Responsive Web Design

Git

AWARDS & HONORS

RISE -Certificate of Excellence Infosys (09/2022)

Insta Award - Certificate of Appreciation Infosys

Automation Open Challenge - Best Reusable Code and Tools

PROJECTS

Infosys Solutions Extension Platform (01/2022 - Present)

- Developed and maintained web applications using the MEAN stack, including Angular for front-end development, Node.js for server-side scripting, and MongoDB for database management.
- Conducted thorough testing and debugging to identify and resolve software defects, ensuring the delivery of high-quality, bug-free code.
- Collaborated with cross-functional teams, including designers, backend developers, and QA engineers, to ensure smooth project execution and timely delivery.

Infosys Employee Experience Platform (05/2022 - Present)

- Developed this enterprise application using Angular .
- Implemented responsive designs using Tailwind CSS, ensuring optimal user experience across various devices and screen sizes.
- Integrated third-party APIs and services to enhance application functionality and improve user experience.

Infosys Oracle AI Fusion (06/2023 - Present)

- Developed this application using Angular and node JS and Lang chain model.,
- successfully designed and implemented intelligent chatbot system that deliver seamless user experiences and drive customer engagement.
- With a strong foundation in Angular and node JS, I am adept at creating dynamic conversational interfaces that understand user intent and provide accurate responses.
